Hi Susan,

Please find attached the list of all cases in Intake in the North West. The list includes cases in active transition, cases allocated to the Team Leader and cases allocated to other staff.

Let us know if you have any questions.

Cheers,
Andrew

Hi Louise

Your data was very much appreciated this morning. Its value was recognised and it was used to inform a detailed discussion on intervention approaches.

Are you able to provide, by midday tomorrow:

a. Total cases in active transition at intake NW (combination of those actively managed at Team Leader plus those in active transition, in date order of earliest notification) – name; age notification date; days since notification
b. All cases at intake x allocated team member - name, age, date of notification; issue, days since notification

Many thanks
Susan

Andrew

I have just had a long conversation with Tony about this and he is full of praise for the work done, an concern about what the data is showing.

Are you able to provide a column (next to the days since notification) that indicates 'P' rating where one is on the system?

Many thanks
Susan

Hi Belinda

Please see the NW file attached. All of the cases identified, have been sorted into the age group of the youngest child in any reported incident.

Let me know if you want any other data.

We look forward to hearing how you want to divide the tasks from her on.

Regards
Susan

Hi Kain
As discussed, are you able to add the July data to the highlighted table – specifically for the NW.?

As always, many thanks for your assistance. It is of course required ASAP.

Susan
